## <u>It is time</u> To Igor

It is time that all of the air forces of the planet help to clean the air.

It is time that all navies in the world help to clean the waters of the earth.

It is time that all armies of the planet help the world with infrastructure.

This is the time for all the forces Of mankind to work together, Avoiding the art of war By promoting prosperity, Clean Renewable Energy, and only work for peace, Just for the sake of Protecting our Mother Earth.

Guillermo Silveira
